

# ADAPTSIL®

**THE FIRST LINE OF FLEXIBLE ADAPTORS IN SILICONE TO CONVEY FLUIDS**

## **ADAPTSIL® adaptors are suitable to convey fluids in the Food, Pharm and Biotech industries**

These adaptors are FDA approved, made out of USP Class VI/platinum cured silicone and meet all the certifications required in these industries. The fittings are made of 316L Stainless Steel and crimped according to SZR® (non retention zone system). The standard fittings are SMS, DIN and sanitary TRI-CLAMP but others are available upon request.

We recommend this product to compensate system vibrations as well as to optimize the overall life of the hose or tube connections.

- ADAPTSIL® offers different standard geometrical configurations but we can custom make any piece according to your customer's needs.
- ADAPTSIL® products can be sterilized and Cleaned in Place (CIP) with steam or any other common product (caustic soda, 4% diluted acid...).
- ADAPTSIL® is the best solution for handling system miss-alignments as well as increased ease in hose or tube installation.
- ADAPTSIL® offers sound dampening characteristics in your process systems due to its elastic and flexible construction.
